

More Able, Gifted and Talented in PE

Our target at Cestria Primary School is to develop the best potential learning opportunities for all our children. Nevertheless, Gifted and Talented education in PE is the method of recognising, picking out, providing for and supporting the most able pupils. Pupils are acknowledged as talented when they show a high level of ability within a full range of Physical Education situations, or have the potential to do so.

Our P.E curriculum allows work that challenges our pupils with activities that develop and stimulate high achievement and good progress. The school will also work supportively with external partners to accommodate for those pupils who have a high level of demand made upon their time as a result of their participation in high level sporting activities outside of school.

Through the Durham and Chester le Street School Sport Partnership (SSP) a number of pupils, from Year 5 and 6, are chosen to take part in a Gifted and Talented Programme. The Durham & CLS SSP Gifted and Talented programmes focus not only on high achievers but also on those who show sporting potential. As part of the programme the pupils have the opportunity to participate in a wide range of sports that they may not have had the opportunity to take part in before. The year 6 students also take part in various sports science workshops revolving around topics such as exercise physiology and nutrition.
